Onderwerp: URGENT: Call for help from our Ukrainian Member

U ontvangt niet vaak e-mail van calum.mackichan@cpme.eu. Meer informatie over waarom dit belangrijk is
Dear Colleagues,

The war against Ukraine is unfolding and so is the humanitarian disaster it produces. The Ukrainian Medical Association is asking us for help to get medical and humanitarian supplies. They have let us know that basically everything in medical supply is falling short now. We must expect that the number of casualties and injured will increase.

We ask you for your help by approaching you ministers of foreign affairs to step up their medical help for Ukraine.

The time window to deliver help may be closing soon. Please reach out urgently.

In addition please consider to support private initiatives for humanitarian help. With a large Ukrainian diaspora, there are initiatives in many of our countries and towns. Some of them have the logistics to still deliver to Ukraine.

Sincerely,

Dr Heidi Stensmyren
WMA President

Dr Christiaan Keijzer
CPME President

Medications urgently needed in Ukraine:

1. Dressing material (bandages; sterile kits; cotton wool; adhesive plaster, elastic bandages)
2. Antiseptics - chlorhexidine, alcohol, iodine, betadine
3. Painkillers, analgesics, anti-inflammatory drugs and solutions
4. Syringes
5. Antibiotics
6. For infusion therapy, blood substitutes.
7. Drugs for the treatment of cardiovascular diseases, antihypertensives
8. Antivirals drugs
9. Antispasmodic drugs and solutions
